

STEP 1 Complete Questionnaire

This questionnaire and informed consent process will help us determine your eligibility for an on-site medical screening.

\$25

STEP 2 On-Site Screening

This in-person medical checkup and blood test will determine your final eligibility for donating white blood cells.

STEP 3 Donate White Blood Cells

Donate your white cells at our facility. One donation typically takes 3-5 hours and you will be compensated for your time.

STEP 4 Receive Compensation

Donor stipends will be provided immediately following your donation in the form of reloadable debit cards.

GET COMPENSATED

Donate Again

We may contact you for follow-up screenings or other opportunities to donate your white blood cells for research.
